

There are 29,995 acres of vineyard and orchards in Napa County. This is according to figures given out by W. D. Butler, county horticultural commissioner. The classification follows: Apples, 784; apricots, 230; cherries, 873; grapes, 11,490; peaches, 145; pears, 3,975; plums, 12,050; walnuts, 605; plums, 100; and almonds, 43 acres.

There are 5,000 dairy cows in Napa County, and 9,500 head of other cattle. This is according to the census of the State department of agriculture. The reports show this county has 29,000 sheep, 16,500 hogs, 2,700 horses, and 260 mules. The number of hogs is an increase of 3,500 over 1926, while there is one less mule in the county than there was in that year. Horses have decreased 262 head in the same period.

The dates for the sixth annual Placer County Fruit Growers' Convention have been tentatively set for October 8th and 9th. This is according to an announcement made by the program committee of the convention. This year the convention will be held in the new high school auditorium at Auburn. As in previous years the convention will be given over largely to discussion of local fruit growers' problems.

An intensive survey of the California tomato industry as a part of a special investigation by the United States Tariff Commission of the production and distribution of fruits and vegetables subject to competition from foreign countries was announced last week by the State Department of Agriculture at Sacramento. Plans for beginning the inquiry were made by G. H. Hecke, director of agriculture, and Harry L. Lourie, tariff commission expert. Last year there were 17,400 acres of table tomatoes and 22,250 acres of canning tomatoes planted in California, which produced \$6,915,000 worth of the vegetable.

Officials of the California Packing Corporation, San Francisco, confirmed last week the announcement that their organization will increase the price of some of its canned goods from 10 to 15 cents the first of this week. California canning peach growers are not to be financially concerned over the price changes, the canners said. The announcement was received with interest in view of the fact that the price controversy between peach canners and growers was settled on August 3, last, after the canners asserted they have a 2,000,000-case carryover from the preceding year.

Nearly 900 bales of cotton have been picked and ginned on the north and south sides of the border in the Imperial Valley, according to ginning reports released. In Lower California the output for the season, from four gins, totals 364 bales while in the north end of the American Imperial Valley the output to date is 530 bales. Considerable damage from falling of squares is reported from all parts of the valley, caused it is said, by the heat. The biggest output from any one gin in Lower California is a government plan colony, Progresso, where the season is a little in advance of other sections.

Use of sulphuric acid as a means of preserving grapes in eatable condition for a long period of time has been found unusually successful by Lester W. Collins, Modesto fruit expert, who is operating in Fresno county this summer. The gas, according to Mr. Collins, seals all cuts in the grapes and kills all spores and vegetable life. Twenty minutes are found sufficient in treating the fruit. After treatment the grapes are kept at 31 degrees temperature. The grapes are laid out in a moderately airtight room so that the gas may reach all berries with ease. Then they are packed in kegs with sawdust. Treatment with gas is only of advantage when there is fear of mildew or other fungi.

Through the courtesy of Orange county packing houses, Orange county oranges will be used to advertise California to the Frenchmen of Paris, when the American Legion convention opens in the French capital. Wilbur Getty, Santa Ana Legionnaire, has secured seventy five boxes of the best fruit and is sending it to Paris to be handed out to the Frenchmen who gather along the line of march when the Legion heads its gigantic street parade on the last day of the convention.

Golden State

News of Interest to All

More than 220,000 motorists from other states and foreign lands visited California last year, according to the California State Automobile Association which welcomes incoming motor tourists at its twenty-seven offices with maps, touring data and necessary permits. The travel tide this year is reported as much greater.

San Francisco's building activities have shown a steady increase during 1927, a monthly report issued last week by the Bureau of Building Inspection shows. A total of 848 permits issued last month for buildings estimated to \$3,609,611, as against 723 permits in July for buildings costing \$3,560,314. In August, 1926, a total of 862 permits were issued for structures estimated at \$4,163,510.

Exceeding every monthly total of 1927 and bearing positive proof that Los Angeles is heading for one of the greatest seasons of construction in its history, city building permits valuations for August reached \$11,790,916, according to the city building department tabulation.

Nearly a million dollars a year is spent in California in controlling rodent pests and approximately \$100,000 in the poisoning and trapping of predatory animals, according to Paul G. Reddington, chief of the Biological Survey of the U. S. Department of Agriculture. "Predatory animals," said Mr. Reddington, "take a heavy toll of agricultural and livestock products annually, and are also a menace to beneficial wild life. This is especially true of lions, coyotes and bobcats."

A new dormitory for women, costing between \$250,000 and \$350,000 and housing 125 students, will soon grace the University of California campus at Berkeley, the gift of Mrs. Philip Ernest Bowles. Announcement of the gift was made last week by President W. W. Campbell. The building will be a memorial to the late Philip Ernest Bowles, university regent and a financial pioneer of California.

The old West is gone forever, and even the cattle rustlers of these modern days have given up cow ponies for limousines. Sheriff Ellis Jones of Sacramento county was last week requested to be on the lookout for a band of 1927 cattle rustlers alleged to have raided a Yuba county stock ranch last week. The "rustlers" were reported to have fled in a large sedan after herding six young calves into the tonneau of the vehicle.

Another long-distance marathon race is in the offing. This one is set for New Year's Day, and will be from Capitola to Monterey, a distance of 22 miles. The Capitola Chamber of Commerce, sponsors of the event, believe that the \$25,000 prize will lure the greatest aquatic stars in the world. Entry blanks will be available next month.

A \$132,000 building—the largest of its kind in the country—in which will be housed all the college publications of the University of California, is the dream of the executive committee of the Associated Students of the university. This was disclosed last week when the committee approved in principle a plan to build such a building. Under the plan being worked out, the new building would provide a home for the "Daily Californian," the "Blue and Gold," the "Countryman," the "Engineer," the "Commercial," and the "Literary Review."

In the annual struggle among directors of the various fairs to obtain something new with which to attract and entertain visitors, the heads of the Southern California fair, to be held at Riverside September 27 to October 2, have this year added an aviation division. Stunt flying will not be featured, but all models of planes from the tiny air speedster to the giant three motored passenger-carrying ships will be on display. The agricultural and live-stock departments, which have always been the backbone of the Southern fair, have not been neglected. Anticipating larger exhibits, additional space has been provided.

San Francisco is now enlisted in the ranks of the cities with traffic rules in conformity with the code which is being generally adopted throughout California. In adopting the recommendations of the San Francisco Traffic Survey Committee last week for a new system of traffic control in the city, the Board of Supervisors took action which gives a definite impetus to the movement for standardization of city traffic rules throughout the state. The legislation adopted embodies all main features of the uniform traffic ordinance for California cities sponsored by the California State Automobile Association and the Automobile Club of Southern California with only such changes as were necessary to meet street conditions peculiar to San Francisco.

SCHOOLS READY TO OPEN MONDAY

Campbell Union Grammar and High School will open Monday next and parents are urged to see that all students are registered and in attendance for the opening sessions. Delayed entrance greatly retards the work of the pupil himself, as well as of all his classmates. See that each pupil starts with an equal chance.

The majority of the faculty of both schools are now here ready for work. Registration has been going on this week and Monday will find things pretty well shaped up, although, at the High School, more or less changes are always necessary during the first day or two.

The teachers who will preside over the destinies of our youths this year are:

I. R. Abbott, principal; Mary Fablinger, 8a; Hancie Naylor, 8b; Ora Jasper, 7a; Helen Nielsen, 7b; Gertrude McCracken, 6a; Dorothy Merriman, 6b; Maude Sourisseau, 5a; Frances Swane, 5b; Mabel Davidson, 4a; Marion Plumm, 4b; Byrdie Husted, 3a; Ruth Bradley, 3b; Edythe Bell, 2a; Margaret Singleton, 2b; Emma Wilson, 1a; Mildred Dunlap, 1b; Ruth Stuart, 1b; Violet Steele, kindergarten; Bernice Saveker, opportunity; Rowena Farman, home making; William Pugh, manual training and athletics; Mrs. Eva Rector, county hospital; Mrs. W. G. Blunt, dietitian; Mary Taormino, assistant dietitian; Edward Towner, orchestra; Mrs. C. Norman Barrett, nurse.

The following is the list of teachers for the high school the coming year.

D. H. Cramer, principal; C. E. York, vice principal, agriculture; C. Norman Barrett, school nurse; Niel O. Best, algebra, general science; Claribel Boesch, chemistry, biology; T. A. Cutting, geometry, history; Anna C. Dart, commercial; Lois Gardner, English, history; Ruby D. Howes, history, physical education; Harriet C. Hummel, English; Marian Jenkins, English; Kittie Johnson, drawing; R. E. Noddin, physics, physical education; A. A. Thielke, band and orchestra; Elizabeth Thomas, Latin, Spanish, French; W. E. Whitney, farm mechanics.

CLUB SOCIAL MEETING

A very delightful afternoon has been arranged for the opening meeting of the Country Woman's Club Monday. Miss Louise Mahan, organist and choir leader of the Congregational Church, and Miss Helen Kalas, our beloved soloist, will be the artist guests of the day. Club members may invite guests.

There will be a short business session during which the plan for the year's program will be explained. Dues are payable at this time.

A full attendance of members is urged so that all may get a clear idea of the work for the year, and everything start off with enthusiasm for the season's effort.

Carl's Nephew Flier

Local interest is centered upon the proposed New York to Paris non-stop flight of Miss Ruth Elder and George Haldeman in "The American Girl" plane as the navigator is a nephew of Carl Field, although of nearly the latter's age. The family and other relatives of the aviator are heartily opposed to the undertaking, but the fair pilot and her assistant are determined upon making the flight, feeling assured of the success of their machine.

Lucius Buck, who is a student at U. C. was home the past weekend.

Mr. and Mrs. T. H. Martin spent the week end at Sacramento attending the State Fair.

MUSICAL SERVICE GIVEN BY CHOIR

The special musical service given at the Congregational Church by the augmented choir Sunday evening was greatly appreciated by a well filled church. A number of young singers are being trained with the older members of the choir by Miss Louise Mahan, organist and musical director who holds the degree of Bachelor of Music from Yale University. She has developed some very good material and the church has been fortunately provided with special music at most of the services. The following program was given:

Prelude
Anthem—"Evening Hour" Beethoven
Prayer
Hymn
Quartet—"On High the Stars Now Are Shining" Joseph Rheinberger
Mrs. Ralph Hyde, Mrs. Geo. Robson, Mr. H. C. Smith, Mr. T. A. Cutting.
Anthem—"Sun of My Soul" Henry Parker
Solo—"How Beautiful Upon the Mountains" F. Flaxington Harker
Mr. Ralph Hyde
Reading—Offertory
Anthem—"God Is a Spirit" Sterndale Bennett
Solo—"Open the Gates" Dr. W. I. Merrill
Sermon
Quartet—"Thanks Be To God" Stanley Dickson
Mrs. Ralph Hyde, Mrs. Geo. Robson, Mr. H. C. Smith, Mr. T. A. Cutting.
Anthem—"The Radiant Morn Hath Passed Away" H. H. Woodward
Postlude

POMONAS HONORED AT CAMPBELL GRANGE

The following candidates were obligated in first and second degrees at the Grange, Tuesday evening. Mrs. Francis M. Kaneen, Mr. E. G. Margason, Mrs. Marion Margason, Mr. L. E. Hendricks, Mrs. Marie M. Hendricks and W. Robinson.

The lecturer's hour was devoted to the goddesses pomona, all of the Granges of the county being represented. They were conducted to seats in a circle at the front of the hall, nine of them, each bearing a basket of fruit. After an introduction by the lecturer each one gave a short history of the kind of fruit they represented.

A fine selection of instrumental music followed by a history of Goddess Pomona by Mrs. Margaret G. Lomax. Pomona of Orchard City Grange. Pomona was a Roman Goddess who in a beautiful garden of fruit where everything grew to perfection with no insects and fungus diseases to pester the life out of the gardener. Pomona was loved by the Silvan Deities, and Vertumnus wooed and won her after long and persistent efforts in which he disguised himself in many different ways. At the back of the platform was a large arch covered with grape vines with beautiful bunches of grapes, purple, white and red, hanging from them. At the left was an immense cornucopia overflowing with gravenstine apples, rich, ripe and red, with oranges, grape fruit, lemons and a great variety of other fruits and foliage decorating the stage. The Grangers—nearly 100 of them—marched past the Goddess and each was presented with a beautiful gravenstine apple, and other fruits by Mrs. Lomax. Then all sought the banquet hall where punch, cakes and fruit were served and a pleasant, sociable time was enjoyed.

Pomona Grange meets Oct. 8th at San Jose. All Grangers are invited whether members of Pomona or not.

The State Grange meets at Stockton this year on October 18.

CAMPBELL KIWANIS OBSERVE CONSTITUTION WEEK AT DINNER

A most interesting and enlightening program in observation of Constitution week was enjoyed by Campbell Kiwanians and visitors at the luncheon Tuesday evening.

Russ Kennedy as chairman directed the program as arranged by Ralph Hyde. President T. A. Cutting gave a five minute talk on "Our Constitution" and read the preamble.

Doc Walt Merrill spoke on citizenship and law observance urging the whole hearted support of all laws on the statute books.

As patriotic music, Hal Tuttle, Hal Cramer, Heck Smith and Doc Merrill sang "Battle Cry of Freedom."

Chas. Crook of Willow Glen city schools as speaker of the evening gave a fine talk on "Comparative Free Government's taking Great Britain, France and United States. The principal departments of each country's government and their differences were given and he stated that our form was by far the best for this country as shown by the wonderful results accomplished.

Our constitution, the greatest of its kind ever written, was the product of the age of statesmanship. Our Senate that has been ridiculed has, after due deliberation, never passed nor rejected a bill that did not meet with public approval after due consideration.

In speaking of the safety of our established form of government he quoted from one of this country's greatest statesmen, Albert J. Beveridge:

"When at sea, the greatest command that can come from the bridge is: 'steady as she goes,' whether in storm or calm that means that all is well and the

course of the ship is true. Let that be our comfort and our guide today amidst the clamor of the impatient passengers who would remove the engine from the vessel, tear off this beam of iron or that plate of steel and alter its course into troubled water let us heed the voice of those who built our ship of state and charted for us the sea, the voice that gave the crew that ancient order of security and well being, 'steady as she goes.'"

In connection with law observance he stated that the Kiwanis International passed a resolution that Kiwanis stands for enforcement of all laws in the United States and Canada.

In closing the assembly stood and read "The American Creed."

"I believe in the United States of America as a government of the people; by the people; for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states; a perfect union, one and inseparable; established upon those principles of freedom, equality, justice and humanity, for which American patriots sacrificed their lives and fortunes."

"I, therefore, believe it is my duty to my country to love it; to support the Constitution; to obey its laws; to respect its flag, and defend it against all enemies."

The program closed with "America, the Beautiful," sung by all standing.

Ira Abbott will be chairman next week and Clarence Hamsher of Los Gatos will speak on the subject, "I Owe a Debt."

All were pleased to have Doc Shumway and Rev. W. E. Eckles at dinner again.

COUNTY WANTS LARGE EXHIBIT AT STATE FAIR

Consolidated Asks \$3500 Appropriation from Supervisors in 1928.

Santa Clara County Consolidated, at its meeting Tuesday of this week at Hotel Sainte Claire, San Jose, after hearing favorable reports of the county exhibit at the recent State Fair by Wendell C. Thomas, president of the organization; W. L. Wilcox of Santa Clara, and other members, adopted a resolution favoring a county exhibit in 1928 and requesting an appropriation of \$3500 by the Board of Supervisors for that purpose. Mr. Thomas, who supervised the preparation of the exhibit, complimented Dr. Wilcox for the time and work he had donated in collecting an exhibit of 36 varieties of pears grown in this county, which carried off eight first, seven second and two third prizes; and he reported that in addition several other prizes had been awarded for other fruits in the exhibit. A resolution of appreciation for the co-operation and financial assistance rendered by the Board of Supervisors, without which Santa Clara County could not have been represented at the fair, was unanimously adopted.

It was also voted to hold Prune Week this year, covering the last calendar week in November, the prunes to be delivered at a central point in each city and town and handled by the Chamber of Commerce in each of the communities. Earle Shaw, of the California Prune & Apricot Association, stated that the association would assist in every way possible. President Thomas appointed the following to serve as a prune committee: W. F. Powers, chairman; Ray Smith, Perry Buckley, G. E. Farley and Clem Bradshaw.

The next meeting will be held at Campbell the first Tuesday of October.

An invitation by the Rev. J. H. Bennett of the Congregational Church was extended to the Grange to attend that church, which was accepted and a date will be fixed later.

The next regular meeting of Orchard City Grange will be Sept. 27 at 8 p. m.

YOUTH OF 19 FOUND DEAD ON CREEK BANK

The community was shocked to hear of the sudden death of Will Green, 19, whose body was found on the creek bank with a bullet in his head. He has been living here with his grandmother, Mrs. J. A. Green while attending Teachers College last year and working this summer. His parents live at Morgan Hill.

Monday morning he went to the college and registered for the coming term. Returning home at noon he took a rifle and left the house supposedly to hunt. When he did not return at dark his relatives were worried and began a search.

Tuesday evening the body was found in the brush on the creek bank. Indications point to suicide, but all who knew him hold to the belief of accidental death.

The family are prostrated with the shock and grief of this tragedy and the deep sympathy of their many friends is extended. The boy had many friends among the younger set of the county, who deeply mourn his passing.

AINSLEY GARDENS WIN AT FLOWER SHOW

Gordon Ainsley won several prizes at the recent flower show in San Jose, being awarded first and second for mixed baskets of gladioli and delphiniums, first for lilies and first for montbeitas.

The Ainsley gardens are rapidly becoming widely known. Strangers enquiring every few days for their location, in addition to a wide advertising by mail. Campbell is proud of this new industry being developed in our community.

The next regular meeting of Orchard City Grange will be Sept. 27 at 8 p. m.

M. E. CHURCH NOTES W. C. Robins, Minister

Methodist Church at Campbell closes a fairly satisfactory year. The pastor and wife left for Sacramento early last Monday morning to attend the annual conference. Perfect harmony prevails in the membership and the pastor's return is ardently desired.

Besides the pastor's salary and the current expense of the church the congregation has given to benevolent causes neat sum of \$1850.

No other organization in the world responds to the call of need like the Church of Jesus Christ. All services will be cared for during the pastor's absence. Rev Geo. Trudgeon will preach next Sunday at 11, with Sunday School at 9:45. Epworth League devotional service at 6:30. Wednesday—Prayer meeting at 7:30. Thursday—15 Ladies Aid meets with Mrs. Brown.

WANTED — Prune Contracts. The Farmer Labors Prune Pickers' Ass'n want Contracts large and small to pick and dry the 1927 crop. All American, Picking Crews; No Child Labor College Students or "Song Birds" in our Crews. Give the Home Town Folks the Work. Carl Lanzer Jr., President, Farmer Labor Prune Pickers' Association.

TWENTY YEARS OLD

The California State Automobile Association was founded August 17, 1907.

Budget Discussed

In view of the coming campaign of the Community Chest of Santa Clara county, a group of representative citizens, comprising the the Campbell Community Council met at the library last Friday evening to consider the reports of the chairmen of the various activities receiving support from the Community Chest.

W. F. Coupland, vice president of the Council, presided. The needs of this work for Campbell relief, for Campbell library, for Boy Scouts and Campfire Girls in this district were all considered, as well as the wider work of the county. The Council is desirous of forming a budget fair to all these activities, as well as to the people contributing to their support. The annual meeting of the Council will be held Friday evening, October 7 at 8 o'clock, at the Campbell library. This is a public meeting for the election of officers, and all citizens of the seven districts comprising the Campbell unit are invited to be present and express their choice as to who will administer this important and unpaid work.

Alpha Apartments
Newly decorated. Three rooms and bath. Make reservation now for the winter.

Only after a public favorite has become a "has-been" does he begin to realize the emptiness of applause.

THE GREEN CITY FOLKS

If you are a "city Jake" and go out into the country, don't show your verdancy. Keep your wits about you. There is no law against smoking, but there is a law about forgetting that a stubble field is not a city pavement. So don't throw your matches and cigarette stubs out of the automobile as you do in the city. Don't throw them at all in the forest. And, in camp, don't think that the fire department will look out for any smouldering fire which you forgot to extinguish. The whole point, in the country and especially in the forest, is that whatever you do not do yourself will not be done. This is the exact reverse of life in the city. Don't show your city greenness by forgetting it.—Chester Rowell.

WHAT IS THE MATTER WITH COMPLETING IT TO WOODWARDIA?

Last Friday's Santa Cruz Sentinel contained the following item:

Message Sent to Highway Commission

It was suggested by Supervisor George Rostron at the Supervisors meeting Thursday, to send a telegram to the State highway commission, in session at Sacramento, for the completion of the Skyline boulevard to Saratoga Gap.

The telegram was read and it was ordered sent. It asks for the completion of the work.

Friend Rostron, what is the matter with getting the boulevard completed to Woodwardia?

Wasn't that the original idea? Wasn't that agreed on?

Or is it (in the background) the former Santa Cruz plan of switching the boulevard down from Saratoga Gap (or thereabouts) to the county seat?

An explanation is in order from you, George.

Why stop at Saratoga Gap?

You know, as well as we do, that Santa Clara county, that has stood in with us so gallantly to get the Skyline boulevard, in order to relieve the congestion on the Glenwood highway, is vitally interested in bringing down that boulevard to Woodwardia, with a view, in the future, of connecting it up with the Bodfish Canyon road, now approaching completion.

And you know, or should know, that it is darned hard to get that boulevard unless we unitedly stand back of a demand to have it completed down to Woodwardia.

With but a little effort we could get a prison convict camp established that would commence preparing the road.

But it would take united effort to accomplish that as the tendency of the head men in the highway commission is to throw all the extra gas tax funds into the completion of roads in the northern part of the State.

The completion of the Skyline boulevard to Woodwardia and thence to the Bodfish Canyon road would be a big thing for Santa Cruz county, not only in increasing its population in opening new territory for homes, but increasing tax collections as well, for the increased revenue would be most acceptable to all of us.

We cannot understand your move, George, favoring completion only to Saratoga Gap.

Is it possible you have gone back on us Pajaro valley folks?

An explanation is anxiously awaited.—Watsonville Pajaronian. (Los Gatos Mail-News)

LITTLE THINGS

Now I must be content with little things,
Sunshine, flowers opening, a bird's wings,
The wash of blue sea on a curving shore,
The quiet path that wanders by my door.

In all little things I must find content,
The wind's crooning to still the rain's lament—
Yet I, with strange and sudden yearning, turn
And build a pyre for memories to burn!

Theodora Gay Flanner

Case Dismissed

The case of the State vs Jean Miller charged with the murder of Roy Miller was dismissed because of the ruling of the court that Mrs. Miller the only witness to the tragedy was the legal wife of Jean. On Jean's release he was rearrested on a charge of assault by Mrs. Miller and returned to jail. Now Mrs. Miller has disappeared making another possibility of miscarriage of justice.

American cars comprise about one-third of the total automobile sales in Belgium at the present time.

The State of Georgia recently raised the speed limit on open highways from thirty to forty miles per hour.

A little oil from time to time will help the condition and working of the accelerator pedal.

COURTESY MAKES FOR SAFETY ON THE HIGHWAY

Safety on the highway can be greatly increased if motorists practice the fundamental rules of courtesy, says a bulletin from the public safety department of the California State Automobile Association. The courteous motorist will not monopolize the worn path over recently spread gravel, compelling all others to turn out into the loose gravel. Another example cited is that of cars meeting on a grade. The car going up the hill should have the right of way over the one descending it is pointed out. This is the rule in mountain districts.

High School Girl, 18, wants place to work for board and room; experienced; can furnish references. Phone Campbell 142-M.

If a man feels it in his bones it is apt to be rheumatism.

The Best Reference

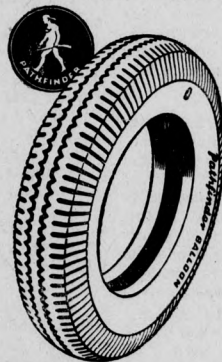

The owner of a growing savings account in the American Trust Company needs no better proof of his earnestness of purpose than the record of the deposit entries in his pass book. The employer knows the man who makes payments to himself before spending is likely to be a good workman. Funds in American Trust Company savings accounts earn four per cent interest, compounded semi-annually.

7:30 P. M. subject: "God's Open Door." This service is given with the Kiwanis Club and their friends as guests and the public is cordially invited to join with us.

If a woman isn't quite sure of her husband she always advertises for a plain cook.

Town Tales Tersely Told

Time books at Smiths.

Mrs. Andrew Larsen of Westwood is visiting her parents, Mr. and Mrs. William Coupland.

Miss Irene Preston left Monday for Vista, San Diego county, where she will teach this year.

Mrs. M. S. Libby of Berkeley was the guest last week of her friend, Mrs. M. B. Jenkins.

Miss Lois Gardner went to the bay cities Wednesday to visit the schools for the remainder of the week.

Friends of Mr. and Mrs. Martial Cottle (nee Florence Wade) are extending congratulations on the birth of a son, September 7.

Mr. and Mrs. H. Hoerler drove to Oakland last week taking their daughter, Miss Elva, who is one of the valued members of the faculty of the city schools.

Miss Winnie Grizzle who went to Applegate Oregon recently to resume her teaching has resigned and will take special work at the State Teachers College.

Mr. and Mrs. G. H. Dowell and Miss Elizabeth, of Bisbee, Ariz., were week-end guests at the D. H. Cramer home. They will visit here again before returning home.

Miss Marian Jenkins of the high school faculty and her sister, Miss Ethel, who will attend the school here, arrived Tuesday and are residing at Mrs. Hattie Baugh's.

Mr. and Mrs. Frank Haliwell will leave soon on their annual vacation spending two weeks at various nearby places of interest. Gayno Eddlemon will substitute at the station as he has the past two weeks.

W. H. Stray drove to St. Helena Saturday, returning Sunday with Mrs. Stray, who had spent some time at the sanitarium there. She was much pleased with the institution and felt greatly benefited by their treatments.

Mrs. Lillie V. Hedrick, who with her family have spent several summers in Campbell, passed away Sunday, and funeral services were held in Los Gatos Tuesday. She is survived by her husband, Bert B. Hedrick and three children.

Mrs. A. M. Foster and daughters went to Santa Cruz Wednesday for a short visit before going to Arizona to join Mr. Foster. They expect to be gone about a year as their house has been rented to Professor Best of the High School faculty.

Mrs. J. H. Campbell who has spent much of the summer at Capitola has returned to Campbell.

Philip Fletcher was home over the holiday week-end. He is attending U. C., where he is taking civil engineering.

The many friends of Mrs. J. C. Birnbaum are pleased to hear that she is steadily improving following her serious operation at the hospital last week.

Two residents of Campbell were among the twenty-four who were granted citizenship Monday by Judge Welch. After passing a satisfactory examination. They are Obren Kosich, at the east-end of Sunnyside Ave.; and Joseph M. Cardoza.

The Woman's Christian Temperance Union will meet with Mrs. Newcomb, West Campbell Ave., Wednesday, September 21, at 2:30 o'clock. This is the first meeting after the summer recess and important business will come before the meeting.

Mrs. Clarence Kehl is rejoicing over a prize which she has just won. The Hanson Music Co. of San Francisco offered a hundred dollar prize to apply on the purchase of any musical instrument in their store for the correct solution of a puzzle picture, and Mrs. Kehl was awarded the prize.

With the opening of schools in many localities and the lessening of the work in some of the canneries, considerable numbers of the summer colony have left and others are departing daily. However, new names appear on the postoffice records as to partially counterbalance the removals, so that a sudden loss in population is not quite so apparent as in some years.

TABLET PLACED ON OLD SPANISH HOMESTEAD

A relic of the Spanish occupation of California and the oldest adobe house in Santa Clara county was honored a few days ago by the oldest patriotic women's organization in America when Chapter 5 of the Colonial Dames placed a bronze tablet on the A. J. Raisen home on the El Quito road between Los Gatos and Saratoga. The Raisen family divide their time between their San Francisco home in their country place down the peninsula and upon this occasion Mrs. Raisen was hostess to three score guests, entertaining at an all-day program including a barbecue speeches and music.

Mrs. Raisen is president of Chapter 5 and the day was the chapter's 25th birthday. The hostess, herself, installed the tablet giving the history of the building.

Rev. J. H. Bennett Installed Pastor Campbell Congregational Church

The following interesting and inspiring installation program was given at the Congregational Church last evening when the Rev. J. H. Bennett was installed as pastor by the ministers of this division of the northern conference.

Local Lumber Co. Make Rapid Growth

One of the most complete changes and rapid advancements made by local enterprise, in keeping with the steady growth of our thriving community, is that made by the Campbell Lumber Company, under the able management of Hal Morton.

This firm has grown from a small country retail lumber yard to a large, modern and completely equipped plant, with unlimited facilities for service and accommodation of customers. It enjoys such great purchasing power and mill connections that in the past thirty days this company has been able to secure such large contracts as the Lloyd job on Hamilton Avenue, Guy M. Latta, contractor, and the more recent "Miller Store" job, the Thermotite Construction Company, Inc., contractors. These contracts have been secured from the keenest field of open competition, and have been handled practically from "PRODUCER TO CONSUMER," as not one piece of lumber on either of these two large jobs has come from local stock, thus eliminating extra handling and cartage.

The Campbell Lumber Company is also furnishing the material for the new C. U. H. S. Annex, O. Strom, contractor, and the Dupuy residence on Alice avenue, A. W. Johnson, contractor.

In securing the services of Mr. C. J. Gaiser as yard foreman, this company has been very fortunate, indeed. His splendid personality, together with his keen ability and genial disposition, have already made for him a host of friends and satisfied customers.

The beautiful and spacious new offices of the company are at all times open for your inspection and comfort, and Hal would be pleased to have you come in at any time to inspect both stock and plant. He is very proud of them, and justly so, and so are all of us.

Mr. and Mrs. F. M. Gattrell are enjoying the pleasures of Lake Tahoe this week.

Never tell a man that his boy looks like his mother if he owes you money.

Of 14,985 felony charges preferred in California during the last two fiscal years, only 694 terminated in acquittals, Governor Young was advised last week in a report submitted by Attorney General U. S. Webb.

Neither time, effort or money is being spared to make the sixth Los Angeles county fair, at Pomona, September 20 and 24, an outstanding success in every department. Several features have been added, that are somewhat in the nature of a surprise, and which no doubt will prove a delight to the thousands of visitors who will attend the exposition this year.

COUNTY EXHIBIT AT STATE FAIR WINS PRAISES

Represented for the first time in many years, Santa Clara county made a decided "hit" at the State Fair at Sacramento by the presentation of 100,000 stuffed prunes to the guests that visited the attractive booth in the large Agricultural Building in the center of the Fair Grounds.

Mrs. Bruce Burton, Mrs. Charles Larsen, Mrs. Minnie Johnson and Miss Sarah Myerfield, wearing becoming artists' costumes and tam o' shanters, acted as hosts in the booth which had the outside appearance of a garden pergola. The lattice work was intertwined with asparagus fern and small flowers of red and yellow. The counters making up part of the front of the booth contain several boxes of dried fruit and fruit in glass. The center of the booth and the main feature of it was an elaborately set dining room table and chair. On the table each day was either prune pie, prune bread, prune cake, prune mousse or other recipes, cut and ready to serve and made according to the large recipes to be found on the back wall, and named after the various county committees. Thousands of recipe booklets, containing prune and apricot recipes only, have been given to the housewives who have requested them. Equally popular have been the Santa Clara county and the various community booklets.

Many of the boxes of the county's fresh fruit, such as prunes, pears, peaches, apples and walnuts were judged. It is to be expected that a more elaborate display can be arranged for next year and that more co-operation from growers, canneries and others will be received.

Russell Pettit, of the San Jose Chamber of Commerce, was in active charge.

Wendell C. Thomas, president of Santa Clara County Consolidated and chairman of the exhibit committee stated that he had overheard a great many compliments on the booth.

Good Will Club

Moreland Good Will Club will open its club year next Wednesday, Sept. 21, with a luncheon at the home of the president, Mrs. Geo. C. Payne, of Payne Ave. The directors and ex-directors will be hostesses and the luncheon hour is set for 12:30 p. m., to be followed by a business meeting.

The club is anticipating another year of interesting and profitable meetings.

Miss Kittie Johnson, who had spent the summer at Yellowstone Park, San Diego and other southern points returned to Campbell Monday morning.

Announcing- THE NEW ZEROLENE

To the motoring public of the Pacific West the Standard Oil Company of California presents The New Zerolene, "The Standard Oil for Motor Cars".

THIS new lubricant is the latest achievement in petroleum products of the Company's research laboratories,—a modern oil for modern motor cars.

The New Zerolene is a wholly distilled oil—by Company processes which take only the highest lubricating values from the best of California crude oils. Every drop is pure lubricant.

The New Zerolene "stands up" at any engine temperature.

The New Zerolene forms no hard carbon.

The New Zerolene does not "thin out"—when the crankcase is drained it is still "live" and "oily".

The New Zerolene is economical—in initial cost and in amount consumed.

The New Zerolene is made in three grades or bodies, No. 3, No. 5 and No. 7. There is a correct grade for your car and every car made.

Zerolene "F" for Fords, an oil especially manufactured to meet the demands of the Model T Ford, remains unchanged.

At all Standard Oil Service Stations and at dealers.

Big Pine Streams Report Fine Fishing

Fishing is becoming better each day in the Tinnemaha, Birch and Big Pine streams near Big Pine, according to the touring bureau of the National Automobile Club.

A fair automobile road is had for 11 miles up creek and from that point horses are taken to the lakes. The best bait at this time is worms and grasshoppers and the flies are Queen of Waters, Gray Hackle, Blue Bottle, Professor, Captain and Mosquito.

If a woman isn't quite sure of her husband she always advises for a plain cook.

Reports of motor vehicle registration in Texas up to August 1, of this year, show a total of 905,382 passenger cars.

TO HOLDERS OF SECOND LIBERTY LOAN 4½ PER CENT BONDS

EXCHANGE OFFERING OF NEW TREASURY NOTES

Second Liberty Loan bonds have been called for payment on November 15th next, and no interest will be paid after that date.

Notice is given of a new offering of United States Treasury notes, in exchange for Second Liberty Loan Converted 4½ per cent bonds. The new notes will be dated September 15, 1927, and will bear interest from that date at the rate of 3½ per cent. The notes will mature in five years but may be called for redemption after three years.

Interest on Second Liberty Loan Converted 4½ per cent bonds surrendered and accepted in exchange will be paid to November 15, 1927. The price of the new issue of notes, is 100½. Holders surrendering Second Liberty Loan Converted 4½ per cent bonds in exchange will receive, at the time of delivery of the new notes, interest on such Second Liberty Loan Converted 4½ per cent bonds from May 15, 1927, to November 15, 1927, less the premium on the new notes issued. Holders of Second Liberty Loan Converted 4½ per cent bonds who desire to take advantage of this opportunity to obtain Treasury notes of the new issue, should arrange with their bank for such exchange at the earliest possible date, as this offer will remain open only for a limited period after September 15th.

Further information may be obtained from banks or trust companies, or from any Federal Reserve Bank.

A. W. MELLON,
Secretary of the Treasury,
Washington, D. C., September 6, 1927.

State Merchants' Assn. Will Meet at Santa Cruz

SANTA CRUZ.—The convention of the California Grocers and Merchants' Association will be held in Santa Cruz on September 26, 27 and 28. Headquarters will be at the Casa del Rey and sessions will be held in the Casino convention auditorium. While the delegates are in session, members of local women's organizations will entertain the wives and daughters of the visitors.

Minnesota Has New 256-Mile Highway

The State of Minnesota now boasts a 256-mile stretch of pavement in a single highway, according to information received by the National Automobile Club. The highway was recently dedicated with the completion of a 143-mile section from Minneapolis and St. Paul to Duluth, and is said to represent an expenditure of more than five million dollars.

Picking and shipping of the 1927 grape deal in the Calipatria and other sections of the Imperial Valley was completed early in August, and early returns indicate a profitable deal for the growers. The crop on matured vines was light, but the younger vineyards produced heavy yields, according to reports. Thompson Seedless and Malagas are the principal varieties grown in the North End district of the valley. Grapes grown at Calipatria begin to ripen early in June, producing some of the earliest fruit in the United States.

FOR SALE — Hudson auto in good condition; \$50; 40 So. Central.

Chickens that come home to roost have more sense than some people.

FIGHT SPECIAL LEAVES S. F. ON MONDAY, SEPT. 19

Northern California will be well represented at the Dempsey-Tunney fight to be held in Chicago, September 22, according to an announcement yesterday (Tuesday) by F. S. McGinnis, passenger traffic manager for the Southern Pacific.

A special train bearing 125 local fight fans will leave San Francisco at 11 a. m. September 19 and arrive in Chicago the morning of the fight. Jim Griffin and Jake Baumgarten are promoting the special.

Under an arrangement between promoter Richard and the various railroads special trains will be run to the fights from all parts of the country. Each railroad has been allotted a block of choice ringside tickets to sell to passengers purchasing railroad tickets to Chicago. The Southern Pacific's block of 200 has just arrived in San Francisco and reservations on the fight special, which includes a ringside seat, are flooding in daily, according to McGinnis.

The tickets allotted the Southern Pacific are in the first ten rows immediately back of the press section and considered the best seats in the stadium.

The special train will return to San Francisco September 28.

The clean fuel

for the home

Every bit
of Gas
is
"scrubbed"
before
you get it

That is why
it is so clean

THE gas you use in your home for cooking, water heating and house heating is "scrubbed"—every bit of it—before it goes through pipes into your home.

In the scrubbing process the gas passes through a series of large tanks. It is washed with water and purified. The lampblack, tar and sulphur are scoured out. Only pure, washed gas passes into the network of mains.

That is why gas is such a clean fuel.

And it's all fuel. No waste—no soot—no work to use it. It instantly burns with intense heat from the moment you strike a match until you turn off the tap. It's always ready for use.

Because gas is so clean and convenient, a gas range, gas water heater or gas-fired furnace saves your time and effort.

223-327

Professor R. M. Miller, of Davis, Yolo County, returned last week from the National Ram Sale at Salt Lake City, bearing the message that the Purple Circle stock produced the highest-priced ram at the sale, and that every one of the thirty-eight head that went from the Yolo County district was sold at good prices.

The first car of Alicante Bouschet grapes from the Roseville district, Placer County, were shipped from Roseville last week, and the first shipment of Mataro left last week also. An average of about two cars of grapes are expected to leave for the East from Roseville daily during this week.

The Redlands crop of melons and sweet corn, now being marketed, is the largest and the best that has been produced in several years. A large acreage was planted to watermelons and cantaloupes this year and, according to B. Watson, one of the large growers, the yield was heavy.

Entries in the draft horse classes at the Ventura county fair, September 14 to 18, are coming in early, indicating another big show in all horse departments, according to Secretary W. W. Van Pelt. This for years has been one of the big features of the Ventura fair. Entries in other departments of the live-stock division give promise of full stalls of high-class stock. Swine classes will be lighter than usual this year, however, unless small breeders make late entries.

Investigations carried on in the Pomona Valley by C. H. York, inspector for the Los Angeles county horticultural commission, show the smallest amount of black scale in citrus groves since the season of 1922. From present indications, according to Mr. York, citrus growers in the Pomona district should harvest a crop 80 per cent of normal, the fruit having shown considerable gain in the past weeks.

The Hemet Walnut Growers' Association expects to handle the largest tonnage in its history this fall, as the trees are loaded heavily. There is some blight present in the trees, but not nearly as much in proportion as in some other walnut-growing district of the State. The heaviest yield of walnuts in the Hemet Valley in any previous year has been 420 tons, and it is considered highly probable that this tonnage will be topped during the coming season.

As a result of the greatest crop in years, Orange county walnut growers have suffered considerable loss from limb breakage this season. H. E. Wahlberg, county farm adviser, states, however, that the loss will not average more than 1 per cent of the crop. This year's breakage, however, has called the attention of growers to the need of propping and wiring their trees in order to prevent future losses. Mr. Wahlberg is advising all growers to mark weak limbs now while they are heavily loaded, so they can be easily spotted and propped as quickly as the walnuts have been harvested.

The Delta District of Sacramento County, now claims to move a crop every month in the year. The addition of the pickle industry and tomato growing is said to have greatly strengthened this claim to year around harvesting. In addition all Delta crops have a ready market. The following tabulation shows the shipping months for various crops. October 1st to February 1st, celery. Approximately 3,800 acres in bearing. February 1st to April 1st, spinach. Annual acreage of 1600 acres. April 1st to July 1st, asparagus—the principal crop. Approximately 55,000 acres in bearing. July 1st to October 1st, pickles, fruit, beans, melons, tomatoes and grains.

California vineyardists must make radical changes in the method of marketing or face low returns, according to warning issued jointly last week by the California Development Association and the University of California. A study of the grape situation has just been completed. H. F. Gould, of the research department of the development organization, together with Dr. S. M. Shear of the college of agriculture of the university, declare that unless a larger market is developed for grapes, prices will drop. It was stated, however, that better conditions than those experienced in 1926 are expected.

The rice committee of the University of California, College of Agriculture, and the office of cereal investigations of the United States Department of Agriculture has set September 16th, from 1:30 to 4:30 P. M., as the date of the sixth annual rice field day to be held at Cortena, Colusa County. At this time the rice will be well matured and the growers will be able to judge the results of the water grass and cat-tail control investigations being conducted on land that has been cropped to rice for ten successive years.

The asparagus pack for the State of California in 1927 totaled 2,187,507 cases. This is an official estimate received at Isleton, Sacramento County. It is estimated that the delta district with nine asparagus canning plants, five of which are in Isleton, packed approximately 95 per cent of this amount. Asparagus cases packed in the delta are of two and four dozen sizes. Based upon an average of 36 cans to the case, this would mean that approximately 78,000,000 cans were packed, of which at least 70,000,000 were from the delta.

Foreign corporations doing intrastate business in California, who wish to go out of business here, need no longer file a notice of their intention with the secretary of state, Attorney General U. S. Webb has just opined.

The third of the amendments to the California Vehicle Act affecting operators' licenses is that which treats with reckless driving, recognized as one of the most serious offenses in motor vehicle operation. Formerly, three convictions for speeding within a year constituted automatic revocation of the operator's license. The law has been amended to provide that the Division shall forthwith revoke the license of any person convicted upon three charges of reckless driving within a period of 12 months from the time of the first conviction.

The new thirty-story Russ building on Montgomery street, between Pine and Bush streets, San Francisco, is now completed and is being occupied by tenants. The Russ structure is the tallest building in San Francisco and the largest office structure on the Pacific Coast. In the building of the giant structure, which affords an unsurpassed view of the bay and the Pacific Ocean on clear days, 22,000 yards of concrete, 9,000 tons of structural steel and 1,500 tons of reinforcing steel were used.

M. E. Armstrong, building inspector, in making a survey of the buildings in Redlands now under way and to be started before the end of the year finds the following buildings being completed: Mutual Orange Distributors, \$50,000; Physicians' Building, \$30,000; school buildings, \$200,000; Y.M.C.A., \$150,000; university chapel, \$200,000; university hospital, \$200,000. Buildings to be started soon are West Coast Theater, \$400,000; community hospital, \$200,000; high-school auditorium, \$200,000; Edison warehouse, \$40,000.
